

Moorings Park's clubhouse renovation and expansion project completed

Special to Naples Daily News
USA TODAY NETWORK - FLORIDA

Moorings Park has just completed the renovation and expansion of its main clubhouse — Park Grill.

The Park Grill was designed to offer Moorings Park's residents, family members, and guests a new gathering place and dining experience. The use of natural materials such as stone and light, slightly rustic wood flooring, a bamboo wood ceiling, light colored shiplap paneled walls, open light spaces decorated with green plants, a vertical garden, floor-to-ceiling windows offering views of palm trees outside, and leather and linen-look seating contribute to the space's relaxed, casual feeling.

As a destination-style restaurant and lounge, the Park Grill provides seating for 122 inside, including the lounge, which offers a full bar, craft beers and wine. The lounge is equipped with a television, fireplace and seating where lite fare can be enjoyed throughout the day.

There are also 32 additional seats in the covered and climate-controlled patio, which will allow for year-round outdoor dining.

The open-kitchen concept Park Grill offers diverse dining selections ranging from center-of-the-plate grill items, Asian wok dishes, brick-oven pizza, pasta and salads. The menu will rotate constantly while remaining focused on providing selections that are fresh, local, healthy, and fast.

Additional enhancements to the clubhouse include a redesigned exterior arrival and entry sequence, which includes a porte-cochere. The new clubhouse also now features a light-filled lobby with a 24-foot high ceiling, a new concierge desk, board room and conference center to name a few.

The lobby features expansive windows that flood the space with natural light. At night, the lobby will be illuminated with a tiered chandelier and cove lighting.

The new concierge desk, a focal point in the lobby, welcomes residents and guests.

The lobby flooring showcases a custom inlaid design of interlaced circles. A palette of silver-toned grays, deep goldenrod, and a range of blue tones, accent patterned wall coverings, artwork, live plants, and streamlined architectural moldings and columns with stained walnut trim provide ambiance.

Additional changes to the clubhouse include a new board room with enhanced acoustics, audio-visual ca-

pabilities and lighting, as well as an adjacent serving kitchen.

A conference center with seating for 14, access to the serving kitchen, and views of a water feature at the front of the building, round out the list of offerings.

The clubhouse enhancements are the latest indication of Moorings Park's commitment to continuous improvement and to providing Simply the Best® services to its residents, including a continuum of care that features access to personalized healthcare 24 hours a day, seven days a week, lifestyle programs to suit a broad variety of interests and pursuits, and a wide array of amenities and activities.

Moorings Park is a nationally accredited, nonprofit, Medicare-certified community and the only A+ S & P and Fitch-rated Life Plan Community in the country.

For those looking to make Moorings Park their future home, the community's two membership programs provide an opportunity for those individuals or couples to experience the community's on-site healthcare, social activities and dining options prior to committing to residency.

The Platinum Membership was designed for individuals and couples who are within one to two years of making their residency decision. The Diamond Membership is available to those individuals and couples who are in the early stages of finalizing their retirement plans.

Both the Platinum and Diamond Membership programs are available for a one-time membership fee, plus a monthly charge. The membership fees can be applied to residency entrance fees at Moorings Park or at the Moorings Park at Grey Oaks campus once the decision to move into Moorings Park is made.

Moorings Park has introduced Care 360, which is available to the general public, as well as its residents and members.

Care 360 was created and developed through a

partnership with Naples Community Hospital (NCH) and provides personalized healthcare based on a model akin to a concierge care practice. A notable advantage is NCH's affiliation with the Mayo Clinic Care Network. Due to this affiliation, Mayo Clinic's physicians and specialists' knowledge and expertise are now available to those participating in the program.
